FIN-0022: Department Expense Summary for Research & Development

Introduction

This document provides a comprehensive summary of the current expenses incurred by the Research & Development department as of the date specified. The department, led by Ryan Munoz, the Head of Research & Development, is responsible for overseeing various projects including Project Echo, Project Cobalt, Project Aurora, Project Basalt, and Project Xenon. The expenses detailed herein reflect the pending and approved costs associated with these projects, with a focus on office supplies, conferences, and training activities.

Department Overview

The Research & Development department (Department ID: D-09) is managed by Ryan Munoz, who holds the role of Head of Research & Development. Ryan Munoz was hired on September 19, 2023, and is based in Singapore. The department's cost center code is CC-109, and the department head reports directly to the senior management team via employee ID E-001.

Expense Analysis

The expenses listed below represent the top entries in the department’s current expenditure report. These figures are accurate as of May 28, 2025, and include both pending and approved costs. The total expenditure amount for these top expenses is detailed in the table, with a focus on categories such as office supplies, conferences, and training.

Summary of Top Expenses

Expense ID	Employee Name	Project Name	Category	Amount (AUD)	Approval Status
X-033	Jamie Smith	Project Echo	office_supplies	4004.0	pending
X-126	Jamie Smith	Project Echo	office_supplies	3988.0	pending
X-031	David Wright	Project Cobalt	conference	3784.0	pending
X-217	Cheyenne Horton	Project Basalt	conference	3537.0	pending
X-141	Cheyenne Horton	Project Aurora	conference	3530.0	pending
X-295	Cheyenne Horton	Project Aurora	conference	3524.0	pending
X-001	Michelle Harmon	Project Xenon	training	3105.0	approved
X-127	Michelle Harmon	Project Xenon	training	3099.0	approved

Total Expense Amount

The total sum of the listed expenses amounts to AUD 36,291.0. Notably, the expenses associated with Jamie Smith for office supplies under Project Echo constitute the largest individual costs, totaling AUD 7992.0, with both entries currently pending approval. Similarly, the expenses for Cheyenne Horton related to conference activities under Projects Basalt and Aurora are significant, reflecting active engagement in external events.

Variance and Commentary

The current expense report indicates a substantial investment in conference activities led by Cheyenne Horton, with four high-value entries totaling AUD 13,375.0. These expenses are pending approval and are indicative of the department’s focus on external knowledge sharing and networking.

Expenses related to Jamie Smith's office supplies for Project Echo are also prominent, totaling AUD 7992.0, and are currently pending approval. The approved training expenses for Michelle Harmon, totaling AUD 6204.0, demonstrate ongoing professional development initiatives within the department.

It is important to monitor the approval status of pending expenses to ensure budget adherence and timely processing. The department's overall expenditure aligns with the strategic focus on project development and staff training.

Conclusion

The Research & Development department continues to incur significant expenses across various categories, with notable activity in office supplies, conferences, and training. The department's leadership, under Ryan Munoz, maintains oversight to ensure expenditures support departmental objectives effectively. Further updates will be provided once pending expenses are approved and processed.
